

JEFFERSON COUNTY DEPARTMENT OF HEALTH

AIR POLLUTION PROGRAM

TITLE V MAJOR SOURCE OPERATING PERMIT

Permittee:

C & B Piping, Inc.

Location:

**8804 Parkway Drive
Leeds, Alabama 35094**

Permit No:

4-07-0455-05

Issuance Date:

October 2, 2020

Expiration Date:

October 1, 2025

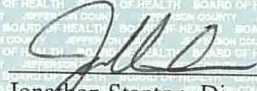

Nature of Business:

Manufacturing and Surface Coating of Metal Pipe and Pipe Fittings

| Emissions Unit No. | Emissions Unit Description |
|--------------------|---|
| 001 | Facility-Wide Surface Coating of Miscellaneous Metal Parts and Products Subject to 40 CFR 63, Subpart M |
| 002 | Facility-Wide Sandblasting Operations |

This Permit is issued pursuant to and is conditioned upon the compliance with the provisions of the Jefferson County Board of Health Air Pollution Control Rules and Regulations, Section 18 of the Alabama Air Pollution Control Act of 1971, Act No. 769 (Regular Session, 1971), Section 22-28-16 of the Alabama Air Pollution Control Act as amended, Orders of the Jefferson County Board of Health, Orders of the Director of the Alabama Department of Environmental Management, and any applicable local, state or federal Court Order. This Permit is subject to the accuracy of all information submitted relating to the permit application and to the conditions appended hereto. It is valid from the date of issuance until the expiration date and shall be posted or kept under file at the source location described above and shall be made readily available for inspection at any reasonable time to any and all persons who may request to see it. This Permit is not transferable.

Pursuant to the Clean Air Act Amendments of 1990 (CAAA), all conditions of this permit are Federally enforceable by EPA, The Jefferson County Board of Health and citizens in general. Those provisions which are not required by the CAAA are considered to be Jefferson County provisions and are not Federally enforceable by EPA and citizens in general. Those provisions are contained in separate sections of this permit.

**Jonathan Stanton, Director
Environmental Health Services**

Approved: **Mark Wilson, M.D.**
Health Officer

GENERAL PERMIT CONDITIONS 3

**Summary of Requirements for Facility-Wide Surface Coating of Miscellaneous Metal Parts and Products
Subject to 40 CFR 63, Subpart M..... 16**

Manual Spray, Brush, Roll Painting and Semi-Automatic Spray Lance Painting, Including the Following
Designation Numbers from the Permit Application: PC-1, PC-2, PC-3 & SW-1 17

Summary of Requirements for Facility-Wide Sandblasting Operations 22

3 Sandblasting Machines, Including the Following Designation Numbers from the Permit Application: SB-1, SB-
2 & SB-3 23

**APPENDIX A: CROSS-REFERENCE TABLE: JCDH AIR POLLUTION CONTROL RULES AND
REGULATIONS TO STATE IMPLEMENTATION PLAN..... 24**

GENERAL PERMIT CONDITIONS

In addition to compliance with Alabama Air Pollution Control Act Number 769 (Regular Session, 1971) and Act Number 612 (Regular Session, 1982) and with all applicable Air Pollution Control Rules and Regulations, the conditions which are listed below are hereby contained in and made a part of this permit. For each citation to a Jefferson County Board of Health regulation provided in connection with a permit condition (other than for those permit conditions that are specifically identified in the permit as not being federally enforceable), Appendix A to this permit identifies the corresponding ADEM regulation that has been approved by EPA as part of the Clean Air Act implementation plan for Alabama (identified in 40 CFR 52, Subpart B). The corresponding ADEM regulations, together with the cited Jefferson County Board of Health regulations, serve as the origin and authority for the associated permit term or condition.

| No. | Federally Enforceable General Permit Conditions | Regulations |
|-----|---|---|
| 1. | <p><u>Basis for Permit</u></p> <p>This Operating Permit is issued based on provisions contained in all existing Jefferson County Board of Health Air Pollution Control Rules and Regulations (hereinafter called Rules and Regulations in this permit). In the event amendments, revisions or additions are made to these Rules and Regulations, it shall be the responsibility of the permit holder (hereinafter called the permittee in this permit) to comply with such new Rules and Regulations. Additions and revisions to the conditions in this Operating Permit will be made by the Jefferson County Department of Health (hereinafter called the Department), if necessary, to assure that the Rules and Regulations are not violated.</p> | AL Act 769 |
| 2. | <p><u>Authority</u></p> <p>Nothing in this Operating Permit or conditions appended thereto shall negate any authority granted to this Department or the Health Officer pursuant to Alabama Air Pollution Control Act No. 769 (Regular Session, 1971) and Act No. 612 (Regular Session, 1982) or any regulations promulgated thereunder.</p> | AL Act 769 AL Act 612 |
| 3. | <p><u>Acceptance of Permit</u></p> <p>The permittee is required to bring the operation of a source within the standards of Paragraph 18.2.8(a) of the Rules and Regulations. Commencing construction or operation of the source shall be deemed acceptance of all conditions specified. A Title V Operating Permit with revised conditions may be issued upon receipt of a new application if the permittee demonstrates that the source can operate within the standard of Paragraph 18.2.8(a) of the Rules and Regulations under the revised conditions. This Title V permit supersedes all permits previously issued by the Department to this facility. The permittee shall return the expired permit(s) to the Department within 30 days after this permit is issued.</p> | 18.2.4 |
| 4. | <p><u>Compliance With Existing and Future Regulations</u></p> <p>A. The permittee shall comply with all conditions of the Rules and Regulations.</p> <p>B. The permittee shall continue to comply with the applicable requirements with which the company has certified that it is already in compliance.</p> <p>C. The permittee shall comply in a timely manner with applicable requirements that become effective during the term of this permit, and shall follow any more detailed schedule of compliance set forth in the applicable requirement.</p> <p>D. The permittee shall be subject to MACT standards from the date of publication by EPA.</p> | 18.5.6 18.4.8(h) 18.7.3 18.7.6 |
| 5. | <p><u>Noncompliance</u></p> <p>The permittee shall comply with all conditions of the permit. Noncompliance with a permit will constitute a violation of the Act and the Rules and Regulations and may result in enforcement action; including but not limited to, permit termination, revocation and reissuance, or modification; or denial of a permit renewal application.</p> | 70.6(a)(6)(i) 18.5.6 |
| 6. | <p><u>Compliance Defense</u></p> <p>The permittee shall not use as a defense in an enforcement action, that maintaining compliance with permit conditions would have required halting or reducing the permitted activity.</p> | 18.5.7 |
| 7. | <p><u>Credible Evidence</u></p> <p>Any credible evidence or information relevant to whether a source may have been in compliance with applicable requirements can be used to establish whether or a not an owner or operator has violated or is in violation of any rule or standard in these Regulations.</p> | 1.18 |

| No. | Federally Enforceable General Permit Conditions | Regulations |
|-----|--|-------------------------------|
| 8. | <p><u>Circumvention</u> No person shall cause or permit the installation or use of any device or any means which, without resulting in reduction in the total amount of air contaminant emitted, conceals or dilutes any emission of air contaminants which would otherwise violate these rules and regulations.</p> | 1.15 40 CFR 63.4 |
| 9. | <p><u>Bypass Prohibited</u> The permittee shall not bypass, without prior approval from this Department, any air pollution control device. The permittee shall not shut down any air pollution control device unless such shutdown is accompanied by the corresponding shutdown of the respective source which the device is intended to control.</p> | 18.2.4 |
| 10. | <p><u>Shutdown of Control Equipment</u> In the case of shutdown of air pollution control equipment for scheduled maintenance, the intent shall be reported to this Department at least 24 hours prior to the planned shutdown unless the scheduled shutdown is accompanied with the shutdown of the source being controlled, including the information listed in Section 1.12.1.</p> | 1.12.1 |
| 11. | <p><u>Maintenance of Controls</u> If a control device is installed at the facility, the following requirements apply: A. The permittee shall equip each fabric filter particulate matter control device with a pressure differential measuring device to measure the pressure drop across the filter media in the control device. The device shall be installed in a location which is easily accessible for inspection by Department personnel. B. All air pollution control devices and capture systems for which this permit is issued shall be maintained and operated at all times in accordance with the manufacturer's specifications or alternative procedures approved by the Department so as to minimize the emissions of air contaminants. Procedures for ensuring that the above equipment is properly operated and maintained so as to minimize the emissions of air contaminants shall be maintained near the source and provided to the Department upon request. C. The permittee shall conduct routine inspections on all required control equipment. All inspection results and repair work performed on the pollution control device shall be recorded. These records shall be kept in a permanent form suitable for inspection.</p> | 18.2.4 |
| 12. | <p><u>Nothing in this Operating Permit shall alter or affect the following:</u> A. The provisions of Section 303 of the Act (emergency orders), including the authority of the Administrator under that section; B. The liability of an owner or operator of a source for any violation of applicable requirements prior to or at the time of permit issuance; C. The applicable requirements of the acid rain program, consistent with Section 408(a) of the Act; or D. The ability of EPA to obtain information from a source pursuant to Section 114 of the Act.</p> | 18.10.3 |
| 13. | <p><u>Additional Information</u> The permittee shall submit any additional information to the Department to supplement or correct an application promptly after becoming aware of the need for additional or corrected information. Also, the permittee shall submit additional information concerning any new requirements which have become applicable after a complete application has been filed but before a draft permit is released. Any change in the information already provided pursuant to 40 CFR 63 shall be provided in writing within 15 calendar days after the change.</p> | 18.4.7 63.9(j) |
| 14. | <p><u>Display and Availability of Permit</u> The permittee shall keep this Operating Permit under file or on display at all times at the site where the source is located and shall make the permit available for inspection by any and all persons who may request to see it.</p> | 18.2.2 |
| 15. | <p><u>Payment of Fees</u> The permittee must have paid all fees required by the Rules and Regulations or the Operating Permit is not valid. Payment of operating permit fees required under Chapter 16 of the Rules and Regulations shall be made on or before the date specified under Section 16.5.1 of the Rules and Regulations of each year. Failure to make payment of fees within 30 days of the specified</p> | 18.5.11 Chapter 16 16.5 |

| No. | Federally Enforceable General Permit Conditions | Regulations |
|-----|--|--------------------------------|
| | date shall cause the assessment of a late fee of 3% (of the original fee) per month or fraction thereof. | |
| 16. | <p><u>Transfer</u> This permit is not transferable, whether by operation of law or otherwise, either from one location to another, from one piece of equipment to another or from one person to another except as provided in Subparagraph 18.13.1(a)(5) of the Rules and Regulations.</p> | 18.2.6 |
| 17. | <p><u>New Air Pollution Sources and Changes to Existing Units</u> A new permit application must be made for new sources, replacements, alterations or design changes which may result in the issuance of, or an increase in the issuance of, air contaminants, or the use of which may eliminate or reduce or control the issuance of air contaminants.</p> | 1.5.15 63.9(j) |
| 18. | <p><u>Construction Not In Accordance with Applications</u> If the source permitted herein has not been constructed in accordance with the Operating Permit application and if the changes noted are of a substantial nature in that the amount of air contaminants emitted by the source may be increased or in that the effect is unknown, then the Operating Permit shall be revoked. No further application for an Operating Permit shall be accepted until the source has been reconstructed in accordance with the Operating Permit or until the permittee has proven to the Department that the change will not cause an increase in the emission of air contaminants.</p> | 18.2.8(e) |
| 19. | <p><u>Expiration</u> A source's right to operate shall terminate upon the expiration of this Operating Permit unless a timely complete renewal application has been submitted at least 6 months, but not more than 18 months before the date of expiration or the Department has taken final action approving the source's application for renewal by the expiration date. The expiration date of this Operating Permit is printed on the first page of this permit.</p> | 18.4.3 18.5.2 18.12.2(b) |
| 20. | <p><u>Revocation</u> This Operating Permit may be revoked for any of the following reasons: A. Failure to comply with any conditions of the permit; B. Failure to establish and maintain such records, make such reports, install, use and maintain such monitoring equipment or methods; and sample such emissions in accordance with such methods at such locations, intervals and procedures as may be prescribed in accordance with Section 1.9.2 of the Rules and Regulations; C. Failure to comply with any provisions of any Department administrative order issued concerning the permitted facility; D. Failure to allow entry and inspections by properly identified Department personnel; E. Failure to comply with the Rules and Regulations; or F. For any other cause, after a hearing which establishes, in the judgment of the Department, that continuance of the permit is not consistent with the purpose of the Act or Rules and Regulations.</p> | 18.2.9 |
| 21. | <p><u>Severability</u> In case of legal challenge to any portion of this Title V Operating Permit, the remainder of the permit conditions shall continue in force.</p> | 18.5.5 |
| 22. | <p><u>Reopening for Cause</u> Under any of the following circumstances, this Operating Permit will be reopened and revised prior to the expiration of the permit: A. Additional applicable requirements under the Clean Air Act become applicable to the permittee with a remaining permit term of 3 or more years. Such a reopening shall be completed no later than 18 months after promulgation of the applicable requirements. No such reopening is required if the effective date of the requirement is later than the date on which this permit is due to expire. B. Additional requirements (including excess emissions requirements) become applicable to an affected source under the acid rain program. Upon approval by the Administrator, excess emissions offset plans shall be deemed to be incorporated into this permit.</p> | 18.13.5 |

| No. | Federally Enforceable General Permit Conditions | Regulations |
|-----|---|--------------------------|
| | <p>C. The Department, ADEM or EPA determines that this permit contains a material mistake or that inaccurate statements were made in establishing the emissions standards or other terms or conditions of this permit.</p> <p>D. The Administrator, ADEM or the Department determines that this permit must be revised or revoked to assure compliance with the applicable requirements.</p> | |
| 23. | <p><u>Changes or Termination for Cause – No Stay of Permit Conditions</u></p> <p>This permit may be modified, revoked, reopened and reissued or terminated for cause. The filing of a request by the permittee for a permit modification, revocation and reissuance or termination, or of a notification of a planned change or anticipated noncompliance will not stay any permit condition.</p> | 18.5.8 |
| 24. | <p><u>Furnishing Requested Information</u></p> <p>The permittee shall furnish to the Department within 30 days, or for such other reasonable time as the Department may set, any information that the Department may request in writing to determine whether cause exists for modifying, revoking and reissuing, or terminating the permit or to determine compliance with the permit. Upon receiving a specific request, the permittee shall also furnish to the Department copies of records required to be kept by the permit. For information claimed to be confidential, the permittee may furnish such records directly to the Administrator along with a claim of confidentiality.</p> | 18.5.10 70.6(a)(6)(v) |
| 25. | <p><u>Entry and Inspections</u></p> <p>The permittee shall allow the Department or authorized representative, upon presentation of credentials and other documents that may be required by law, to conduct the following:</p> <ul style="list-style-type: none"> A. Enter upon the permittee's premises where a source is located or emissions related activity is conducted or where records are kept pursuant to the permit conditions; B. Review and/or copy at reasonable times any records kept pursuant to the permit conditions; C. Inspect at reasonable times any facilities, equipment (including monitoring and air pollution control equipment), practices or operations required by the permit; and D. Sample or monitor at reasonable times substances or parameters for the purpose of assuring compliance with the permit or other applicable requirements. <p>Denial of access upon proper identification is grounds for permit revocation.</p> | 18.7.2 18.2.9(d) |
| 26. | <p><u>Flexibility Changes</u></p> <p>Certain changes (per Section 502 (b)(10) of the Act) can be made to this Operating Permit without a revision if no modification as defined in the Rules and Regulations would occur and the changes do not exceed the emissions allowed under this permit provided that written notification is sent to the Department and EPA at least 7 days before the change is made. The written notification shall describe the proposed change, the date of the change, any change in emissions, and any term or condition of the permit which is no longer valid due to the change.</p> | 18.13.2 |
| 27. | <p><u>Minor Permit Modifications</u></p> <p>Minor permit modification procedures may be used only for those permit modifications that:</p> <ul style="list-style-type: none"> A. Do not violate any applicable requirement; B. Do not involve significant changes to existing monitoring, reporting, or record keeping requirements in the permit; C. Do not require or change a case-by-case determination of an emission limitation or other standard, or a source-specific determination for temporary sources of ambient impacts, or a visibility or increment analysis; D. Do not seek to establish or change a permit term or condition for which there is no corresponding underlying applicable requirement and that the source has assumed to avoid an applicable requirement to which the source would otherwise be subject; E. Are not modifications under any provision of title I of the Act; and F. Are not required by Part 18.12 of this Chapter to be processed as a significant modification. <p>An application requesting the use of minor permit modification procedures shall meet the requirements of Section 18.4.8 relative to the modification and shall include the information listed at 18.3.3(b).</p> | 18.13.3(a)(1) 18.13.3 |

| No. | Federally Enforceable General Permit Conditions | Regulations |
|-----|--|-----------------------------|
| 28. | <p><u>Significant Modifications</u> Modifications that are significant modifications under the PSD (Part 2.4) or nonattainment (Part 2.5) regulations, are modifications under the NSPS or NESHAPS regulations, or otherwise do not meet the requirements for minor permit modifications from Section 18.13.3 of the Rules and Regulations must be incorporated in the Operating Permit using the requirements for sources initially applying for an Operating Permit, including those for applications, public participation, review by affected States, review by ADEM, and review by EPA, as described in Parts 18.4 and 18.15 of the Rules and Regulations.</p> | 18.13.4 |
| 29. | <p><u>Property Rights and Privileges</u> No property rights of any sort or any exclusive privilege are conveyed through the issuance of this Operating Permit.</p> | 18.5.9 |
| 30. | <p><u>Alternative Operating Scenarios</u> No alternative operating scenarios were identified by the permittee in its application.</p> | 18.5.13 |
| 31. | <p><u>Economic Incentives</u> No permit revision shall be required under any approved economic incentives, marketable permit emissions trading and other similar programs or processes for changes that are provided for in the Operating Permit.</p> | 18.5.12 |
| 32. | <p><u>Emission Reduction Plan</u> Upon notification by this Department, the permittee shall submit an Air Pollution Emission Reduction Plan in a format approved by this Department concerning air contaminant emissions reductions to be taken during declared air pollution episodes.</p> | 18.2.8(b) |
| 33. | <p><u>Emergency Provision</u></p> <p>A. An "emergency" means any situation arising from sudden and reasonably unforeseeable events beyond the control of the source, including acts of God, which situation requires immediate corrective action to restore normal operation, and that causes the source to exceed a technology-based emissions limitation under the Operating Permit, due to unavoidable increases in emissions attributable to the emergency. An emergency shall not include noncompliance to the extent caused by improperly designed equipment, lack of preventative maintenance, careless or improper operation, or operator error.</p> <p>B. Exceedances of emission limits during emergencies (as defined above) at a facility may be exempted from being violations provided that:</p> <ol style="list-style-type: none"> 1. The permittee can identify the cause(s) of the emergency; 2. At the time of the emergency, the permitted facility was being properly operated; 3. During the period of the emergency the permittee took all reasonable steps to minimize levels of emissions that exceeded the emission standards, or other requirements in the permit; 4. The permittee submitted notice of the emergency to the Health Department within 2 working days of the time when emission limitations were exceeded due to the emergency, including those deviations attributable to upset conditions as defined in the permit, the probable cause of said deviations, and any corrective actions or preventive measures that were taken; 5. The permittee submitted a written documentation of what was reported in the notice of the emergency to the Department within 5 working days of the emergency; and 6. The permittee immediately documented the emergency exceedance in an "Emergency Log", which shall be maintained for 5 years in a form suitable for inspection upon request by a representative of the Department. <p>C. The permittee has the burden of proof to assert and establish that excess emissions were attributable to an emergency.</p> <p>D. This provision is in addition to any emergency or upset provision contained in any applicable requirement.</p> | 18.11.2 |
| 34. | <p><u>Fugitive Dust</u> The permittee shall take reasonable precautions to prevent dust from any operation, process, handling, storage, or transportation activity, including dust from paved and unpaved roads and grounds in the source permitted herein from becoming airborne. The permittee shall not cause</p> | 6.2.1 6.2.2 18.2.8(a) |

| No. | Federally Enforceable General Permit Conditions | Regulations |
|-----|--|--|
| | <p>or allow the discharge of visible emissions which travel beyond the property line of the facility. Reasonable precautions for dust minimization include, but are not limited to:</p> <p>A. Unpaved plant or haul roads and grounds will be maintained in the following manner so that dust will not become airborne:</p> <ol style="list-style-type: none"> 1. By the application of water any time the surface of the road is sufficiently dry to allow the creation of dust emissions by the act of wind or vehicular traffic; 2. By reducing the speed of vehicular traffic to a point below that at which dust emissions are created; 3. By paving; 4. By the application of binders (chemical dust suppressants) to the road surface at any time the road surface is found to allow the creation of dust emissions; or 5. By any combination of the above methods which results in the prevention of dust becoming airborne from the road surface. Other dust control methods not listed above may be used if approved by the Department. <p>B. Paved plant roads and grounds shall be maintained in the following manner so that dust will not become airborne:</p> <ol style="list-style-type: none"> 1. Mechanical cleaning (vacuuming); 2. Water flushing; 3. Earth or other dust-forming material that is deposited on the paved roads shall be removed at the earliest opportunity subject to safety; 4. Paving or using a chemical dust suppressant on unpaved access points; 5. Washing and dewatering tires and the underbody of trucks which enter a paved road from an unpaved road; or 6. By any combination of the above methods which results in the prevention of dust becoming airborne from the road surface. Other dust control methods not listed above may be used if approved by the Department. | |
| 35. | <p><u>Obnoxious Odors</u></p> <p>This Operating Permit is issued with the condition that, should obnoxious odors arising from the plant operations be verified by Department inspectors, measures to abate the odorous emissions shall be taken upon determination by this Department that these measures are technically and economically feasible.</p> | 6.2.3 |
| 36. | <p><u>Title VI Requirements (Refrigerants)</u></p> <p>Any facility having appliances or refrigeration equipment, including air conditioning equipment, which use Class I or Class II ozone-depleting substances such as chlorofluorocarbons and hydrochlorofluorocarbons listed as refrigerants in 40 CFR 82, Subpart A, Appendices A and B, shall service, repair, and maintain such equipment according to the work practices, personnel certification requirements, and certified recycling and recovery equipment specified in 40 CFR 82, Subpart F.</p> <p>A. No person shall knowingly vent or otherwise release any Class I or Class II substance into the environment during the repair, servicing, maintenance, or disposal of any such device except as provided in 40 CFR 82, Subpart F.</p> <p>B. The responsible official shall comply with all reporting and recordkeeping requirements of 40 CFR 82.166. Reports shall be submitted to the U.S. EPA and the Department as required.</p> | 40 CFR 82 18.1.1(e)(10) 18.1.1(w)(4) |
| 37. | <p><u>Asbestos Demolition and Renovation</u></p> <p>Demolition and renovation activities at this facility are subject to the National Emission Standard for Asbestos, 40 CFR 61, Subpart M. To determine the applicable requirements of the Standard, the permittee must thoroughly inspect the affected part of the facility where the demolition or renovation operation will occur for the presence of asbestos, including Category I and Category II nonfriable asbestos-containing materials, prior to the commencement of the demolition or renovation operation. The permittee shall comply with all applicable sections of the Standard, including notification requirements, emission control and waste disposal procedures. The permittee shall also ensure that anyone performing asbestos-related work at the</p> | 40 CFR 61 14.2.12 14.2.12(a)(1) |

| No. | Federally Enforceable General Permit Conditions | Regulations |
|-----|---|--|
| | facility is trained and certified according to the Alabama Department of Environmental Management's regulations for Asbestos Contractor Certification. | |
| 38. | <p><u>Prevention of Accidental Releases</u></p> <p>The permittee shall comply with the requirements of Section 112 (r) of the Act and 40 CFR 68 to prevent accidental releases of any substance listed pursuant to Section 112 (r) or any other extremely hazardous substance.</p> | <p>112 (r) 40 CFR 68</p> |
| 39. | <p><u>Testing</u></p> <p>A source emissions test may be required by this Department at any time. The Administrator may require a performance test for a source subject to NESHAP at any time authorized by section 114 of the Clean Air Act. The permittee shall provide each point of emission with sampling ports, ladders, stationary platforms, and other safety equipment to facilitate testing. The permittee shall notify the Department in writing at least 2 weeks prior to conducting any required emissions test on any source (60 days for a source subject to NESHAP, including but not limited to 40 CFR 63, Subpart Mmmm). This notice shall state the source to be tested, the proposed time and date(s) of the test, the purpose of the test, and the methods to be used. The methods for such testing shall be in accordance with procedures established by 40 CFR 51, 40 CFR 60, 40 CFR 61, 40 CFR 63 and any emissions unit specific permit requirements. The permittee shall submit the results of all emissions tests in electronic form to this Department within a time period specified by this Department; however, not to exceed 3 weeks from the test completion date.</p> | <p>1.9.1 1.10.3 18.2.5 18.2.8(c) 63.7 63.9(e)</p> |
| 40. | <p><u>Retention of Records</u></p> <p>Records of all required monitoring data, fuel consumption, analyses, reports, MSDS, and other support information shall be retained for a minimum of 5 years from the date when the record was generated. Records must be readily accessible and suitable for inspection. Each record must be kept onsite for at least 2 years after the date of each occurrence, measurement, maintenance, corrective action, report, or record, but may be maintained offsite for the remaining 3 years. Records may be kept in hard copy or electronically. Specific records to be made and retained are listed in the emission unit conditions.</p> | <p>18.5.3(b) 63.3931 63.10(b)(1)</p> |
| 41. | <p><u>Timing for Submission of Reports and Notifications</u></p> <p>The permittee shall submit all reports and notifications required by any permit condition and by any applicable NESHAP and/or NSPS to the Department in electronic form. The reports may be sent by U. S. mail or by electronic mail. Reports submitted by US mail shall be postmarked on or before the due date. Reports submitted by electronic mail shall be received on or before the due date. The information to be included in each report is listed in General Conditions 45 – 47 below. Any document required to be submitted by this permit shall contain a certification by a responsible official that meets the requirements of Section 18.4.9. The following reports are required to be submitted on the following schedule:</p> <p>A. Annual Production and Emissions Report, due February 10 of each year covering the pervious calendar year.</p> <p>B. Annual Title V Compliance Certification, covering the period from April 12 to April 11 of the following year, shall be submitted by May 12 each calendar year.</p> <p>C. 6-Month Monitoring Report for Title V and 40 CFR 63, Subpart Mmmm, due July 31 (covering January 1 to June 30) and January 31 (covering July to December of the previous year).</p> <p>D. Episodic prompt reporting of malfunctions, deviations, emergencies and violations from the permit within 2 working days of the malfunction, deviation, emergency or discovery of a violation.</p> <p>E. Notifications as follows:</p> <ol style="list-style-type: none"> 1. Notify the Department in writing within 15 days of if you change any information submitted in any notification pursuant to Subpart Mmmm. 2. Notify the Department in writing within 2 working days of becoming subject to a federal Maximum Achievable Control Technology (MACT) standard pursuant to Section 112 of the Act (local requirement). <p>F. Compliance schedule progress reports if a compliance schedule is required.</p> | <p>18.4.9 18.5.3(c) 18.7.1 18.7.5 18.11.2(b)(4) 18.7.6 63.9(j) 63.10(e) 1.12.2</p> |

| No. | Federally Enforceable General Permit Conditions | Regulations |
|-----|--|---|
| 42. | <p><u>Contents of Annual Production and Emissions Report</u></p> <p>The permittee shall submit by February 10th of each year to this Department an annual summary report for the previous calendar year in a format approved by this Department of the following production information for each emissions unit permitted herein:</p> <ol style="list-style-type: none"> The hours of operation for surface coating and sand blasting operations; The total quantity in gallons of surface coatings, organic solvent thinners and cleanup solvents used; The quantity in gallons of waste surface coatings, solvent thinners and cleanup solvents disposed of properly (i.e.: sent to a waste solvent recovery facility or incinerated); The quantity of sand (or other abrasive) used for sand blasting and the quantity of pipe subjected to blasting; The quantity of fuel combusted by heating equipment and mobile equipment; The quantity of VOC and/or HAP material emitted to the atmosphere as a result of spills and other mishaps; and The actual calendar year emissions (point and fugitive) of all regulated air pollutants as defined in Section 16.2.7 of the Rules and Regulations, including but not necessarily limited to TSP, PM₁₀, PM_{2.5}, NO_x, CO, VOC, and SO_x, and all HAP based upon the above calendar year records. <p>The submission shall include a certification by a responsible official of the truth, accuracy and completeness of the report. The report shall contain sufficient detail of the VOC and HAP contents of each product used in surface coating to allow the Department to verify the emissions calculations. Concurrence with the calculations by the Department shall be the basis for annual emission fees in accordance with Chapter 16 of the Rules and Regulations.</p> | <p>1.5.15 1.9.2 18.7.1</p> |
| 43. | <p><u>Contents of Title V Submissions</u></p> <p>Any document or report submitted under this requirement shall contain a certification of truth, accuracy, and completeness by a responsible official that meets the requirements of Section 18.4.9 of the Rules and Regulations. The certification shall state that, based on information and belief formed after reasonable inquiry, the statements and information in the document are true, accurate and complete. These documents shall be submitted to the following 2 agencies:</p> <div style="display: flex; justify-content: space-between; margin-top: 10px;"> <div style="width: 45%;"> <p>Jefferson County Department of Health Air Pollution Control Program P.O. Box 2648 Birmingham, Alabama 35202-2648</p> </div> <div style="width: 45%; text-align: right;"> <p>and to EPA Region IV Atlanta Federal Center 61 Forsyth Street Atlanta, GA 30303</p> </div> </div> <ol style="list-style-type: none"> Title V Annual Compliance Certification: A compliance certification with terms and conditions contained in the permit, including emissions limitations, standards and work practices, covering the period from April 12 to April 11 of the following year, shall be submitted by May 12 each calendar year. The permittee shall provide a means for monitoring the compliance of its air pollution sources with the emissions limitation, standards and work practices listed or referenced within this permit. The compliance certification shall include the following: <ol style="list-style-type: none"> The identification of each term or condition of this permit that is being certified; The emission unit or units to which the term or condition applies; The compliance status; Whether compliance has been continuous or intermittent; The method(s) used for determining the compliance status of the source, currently and over the reporting period consistent with the Rules and Regulations; and Such other facts as the Department may require to determine the compliance status of the source, including but not limited to identifying each deviation that occurred. Semi-Annual Monitoring Report for Title V and 40 CFR 63, Subpart M: A semiannual compliance report shall be submitted within 31 days after the 6-month reporting period (January–June and July–December), according to the requirements in §63.10(e) and including the following elements: <ol style="list-style-type: none"> Company name and address; | <p>18.4.9 18.7.1 18.7.5 18.5.3(c)(2) 18.11.2(b)(4) 63.3920(a) 63.3930 63.3942(c) 63.3952(c) 63.10(b) 63.10(d) 63.9(j)</p> |

|-----|--|--|
| | <ol style="list-style-type: none"> 2. Date of the report and beginning and ending dates of the reporting period; 3. Identification of the compliance option or options used on each coating operation during the reporting period, including the beginning and ending dates for each option used if more than one option was used during the reporting period. 4. The calculation results for each rolling 12-month organic HAP emission rate during the 6-month reporting period if the emission rate without add-on controls option has been used. 5. If there are no deviations from any organic HAP emissions limit, a statement that there were no deviations from the organic HAP emissions limit during the reporting period including the basis for compliance as follows for the options below: <ol style="list-style-type: none"> a. For the compliant materials options, because no coatings which exceeded the applicable emission limit were used and no thinner and/or additive, or cleaning material containing organic HAP was used. b. For the emission rate without add-on controls option, because the organic HAP emission rate for each compliance period was less than or equal to the applicable emission limit. 6. Any and all instances of deviation from any permit condition during the reporting period must be clearly identified. For sources covered under 40 CFR 63, Subpart Mmmm, report the information listed at 40 CFR 63.3920(a)(5) for the complaint material option and/or the information listed at 40 CFR 63.3920(a)(6) for the emission rate without add-on controls option. 7. A failure to collect and keep records required by Subpart Mmmm shall be reported as a deviation. <p>C. Episodic: If you change any information submitted in any notification pursuant to Subpart Mmmm, submit the changes in writing within 15 days after the change.</p> <p>D. Prompt Reporting of Malfunctions, Deviations, Emergencies and Violations: Malfunctions, deviations (including those attributable to upset conditions), violations of permit requirements and exceedances of emission limits during an emergency shall be reported within 2 working days, including the probable cause of said malfunctions, emergency, deviations or violations and any corrective actions or preventive measures that were taken. In the event of an emergency, written documentation demonstrating that the event falls under the Department's emergency provision (General Condition 33) must be submitted within 5 days of the event. This episodic reporting requirement is in addition to and does not replace periodic reporting requirements.</p> | |
| 44. | <p><u>Compliance Schedule Progress Reports</u></p> <p>If any air pollution source owned or operated by the permittee is not in compliance with the emissions limitations, standards and work practices listed or referenced within this permit, the permittee shall submit progress reports including a statement of truth, accuracy and completeness of these reports shall be certified by a responsible official for that air pollution source. The first progress report shall be submitted within 3 months after the Operating Permit issuance date or within 3 months of the permittee or Department determining that the air pollution source is not in compliance. Subsequent reports shall be submitted every 6 months following the initial report. The progress reports shall contain the following:</p> <ol style="list-style-type: none"> A. Dates for achieving the activities, milestones, or compliance required in the schedule of compliance, and/or dates when such activities, milestones or compliance were achieved; and B. An explanation of why any dates in the schedule of compliance were not or will not be met, and any preventive or corrective measures adopted. | <p>18.4.8(h) 18.7.3 18.7.4</p> |
| 45. | <p><u>Definitions</u></p> <p>For the purposes of this Major Source Operating Permit, the following terms will have the meanings ascribed to in this permit:</p> | <p>1.3 63.3981</p> |

| No. | Federally Enforceable General Permit Conditions | Regulations |
|-----|--|-------------|
| | <p>"12-Month Rolling Average" means a method of determination of compliance with an emission limit calculated after the end of each month as the average of the monthly emission rates for the 12 most recent completed months.</p> <p>"12-Month Rolling Total" means a method of determination of compliance with an annual limit calculated after the end of each month as the sum of the monthly emissions for the 12 most recent completed months.</p> <p>"40 CFR 51" shall be an acronym for Part 51 of Title 40 of the Code of Federal Regulations.</p> <p>"40 CFR 60" shall be an acronym for Part 60 of Title 40 of the Code of Federal Regulations.</p> <p>"40 CFR 61" shall be an acronym for Part 61 of Title 40 of the Code of Federal Regulations.</p> <p>"40 CFR 63" shall be an acronym for Part 63 of Title 40 of the Code of Federal Regulations.</p> <p>"40 CFR 68" shall be an acronym for Part 68 of Title 40 of the Code of Federal Regulations.</p> <p>"40 CFR 82" shall be an acronym for Part 82 of Title 40 of the Code of Federal Regulations.</p> <p>"Act" shall mean the Clean Air Act, as amended, 42 U.S.C. 7401, et seq.</p> <p>"Additive" means a material that is added to a coating after purchase from a supplier (e.g., catalysts, activators, accelerators).</p> <p>"ADEM" shall mean the Alabama Department of Environmental Management.</p> <p>"Application Area" shall mean the area where the surface coating is applied by spraying, dipping, or flowcoating techniques.</p> <p>"Add-on control" means an air pollution control device, such as a thermal oxidizer or carbon adsorber, that reduces pollution in an air stream by destruction or removal before discharge to the atmosphere.</p> <p>"Adhesive, adhesive coating" means any chemical substance that is applied for the purpose of bonding two surfaces together. Products used on humans and animals, adhesive tape, contact paper, or any other product with an adhesive incorporated onto or in an inert substrate shall not be considered adhesives under this Subpart MMMM.</p> <p>"Annual Rolling Total" shall be an equivalent phrase for "12-Month Rolling Total."</p> <p>"Cleaning material" means a solvent used to remove contaminants and other materials, such as dirt, grease, oil, and dried or wet coating (e.g., repainting or paint stripping), from a substrate before or after coating application or from equipment associated with a coating operation, such as spray booths, spray guns, racks, tanks, and hangers. Thus, it includes any cleaning material used on substrates or equipment or both.</p> <p>"Coating" shall mean a material applied to a substrate for decorative, protective, or functional purposes. Such materials include, but are not limited to, paints, sealants, liquid plastic coatings, caulks, inks, adhesives, and maskants. Decorative, protective, or functional materials that consist only of protective oils for metal, acids, bases, or any combination of these substances, or paper film or plastic film which may be pre-coated with an adhesive by the film manufacturer, are not considered coatings for the purposes of this subpart. A liquid plastic coating means a coating made from fine particle-size polyvinyl chloride (PVC) in solution (also referred to as a plastisol).</p> <p>"Coating Application System" shall mean all operations and equipment which applies, conveys, and dries a surface coating, including but not limited to, spray booths, flow coaters, dip tanks, flashoff areas, air dryers and ovens.</p> | |

| No. | Federally Enforceable General Permit Conditions | Regulations |
|-----|---|-------------|
| | <p>“Coating operation” means equipment used to apply cleaning materials to a substrate to prepare it for coating application (surface preparation) or to remove dried coating; to apply coating to a substrate (coating application) and to dry or cure the coating after application; or to clean coating operation equipment (equipment cleaning). A single coating operation may include any combination of these types of equipment, but always includes at least the point at which a given quantity of coating or cleaning material is applied to a given part and all subsequent points in the affected source where organic HAP are emitted from the specific quantity of coating or cleaning material on the specific part. There may be multiple coating operations in an affected source. Coating application with handheld, non-refillable aerosol containers, touch-up markers, or marking pens is not a coating operation for the purposes of Subpart MMMM.</p> <p>“Coatings solids” means the nonvolatile portion of the coating that makes up the dry film.</p> <p>“Cold Solvent Cleaning” shall mean the batch process of cleaning and removing soils from metal surfaces by spraying, brushing, flushing or immersion while maintaining the solvent below its boiling point. Wipe cleaning is not included in this definition.</p> <p>“Department” shall mean the Jefferson County Department of Health.</p> <p>“Deviation” means any instance in which the permittee fails to meet any requirement or obligation established by regulation, including but not limited to any emission limitation, operating limit, work practice standard, or any permit term or condition. For purposes of Subpart MMMM, deviation means any time the permittee:</p> <ol style="list-style-type: none"> 1. Fails to meet any requirement or obligation established by Subpart MMMM including but not limited to, any emission limit or operating limit or work practice standard; 2. Fails to meet any term or condition that is adopted to implement an applicable requirement in Subpart MMMM and that is included in the operating permit for any affected source required to obtain such a permit; or 3. Fails to meet any emission limit, or operating limit, or work practice standard in Subpart MMMM during startup, shutdown, or malfunction, regardless of whether or not such failure is permitted by Subpart MMMM. <p>“Emission limitation” means the aggregate of all requirements associated with a compliance option including emission limit, operating limit, work practice standard, etc.</p> <p>“Emergency” means any situation arising from sudden and reasonably unforeseeable events beyond the control of the facility, including acts of God. These are situations that require immediate corrective actions(s) to restore normal operation, and that cause the facility to exceed a technology based emission limitation set by the permit, due to unavoidable increases in emissions attributable to the emergency. An emergency shall not include noncompliance to the extent caused by improperly designed equipment, lack of preventative maintenance, careless or improper operation, or operator error.</p> <p>“Emissions unit” means any part or activity of a stationary source that emits or has the potential to emit any regulated air pollutant or any pollutant listed under Section 112(b) of the Act.</p> <p>“EPA” means the U.S. Environmental Protection Agency.</p> <p>“Flash-off Area” shall mean the portion of a surface coating operation between the coating application area and the bake oven.</p> <p>“General use coating” means any material that meets the definition of coating but does not meet the definition of high performance coating, rubber-to-metal coating, magnet wire coating, or extreme performance fluoropolymer coating as defined in Subpart MMMM.</p> <p>“HAP” shall be an acronym for Hazardous Air Pollutant.</p> | |

| No. | Federally Enforceable General Permit Conditions | Regulations |
|-----|---|-------------|
| | <p>"Hazardous Air Pollutant" means any of the substances listed in Appendix D of the Rules and Regulations.</p> <p>"Manufacturer's formulation data" means data on a material (such as a coating) that are supplied by the material manufacturer based on knowledge of the ingredients used to manufacture that material, rather than based on testing of the material with the test methods specified in 40 CFR 63.3941. Manufacturer's formulation data may include, but are not limited to, information on density, organic HAP content, volatile organic matter content, and coating solids content.</p> <p>"Mass fraction of organic HAP" means the ratio of the mass of organic HAP to the mass of a material in which it is contained, expressed as kg of organic HAP per kg of material.</p> <p>"NESHAP" shall be an acronym for "National Emission Standards for Hazardous Air Pollutants."</p> <p>"Non-HAP coating" means, for the purposes of Subpart MMMM, a coating that contains no more than 0.1 percent by mass of any individual organic HAP that is an OSHA-defined carcinogen as specified in 29 CFR 1910.1200(d)(4) and no more than 1.0 percent by mass for any other individual HAP.</p> <p>"Organic HAP content" means the mass of organic HAP emitted per volume of coating solids used for a coating calculated using Equation 2 of 40 CFR 63.3941. The organic HAP content is determined for the coating in the condition it is in when received from its manufacturer or supplier and does not account for any alteration after receipt. For reactive adhesives in which some of the HAP react to form solids and are not emitted to the atmosphere, organic HAP content is the mass of organic HAP that is emitted, rather than the organic HAP content of the coating as it is received.</p> <p>"Permittee" means the holder of an operating permit issued by the Department.</p> <p>"Pollution prevention" means source reduction as defined under the Pollution Prevention Act of 1990 (e.g., equipment or technology modifications, process or procedure modifications, reformulation or redesign of products, substitution of raw materials, and improvements in housekeeping, maintenance, training, or inventory control), and other practices that reduce or eliminate the creation of pollutants through increased efficiency in the use of raw materials, energy, water, or other resources, or protection of natural resources by conservation.</p> <p>"Responsible official" means a president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy or decision-making functions for the corporation, or a duly authorized representative of such person if the representative is responsible for the overall operation of one or more manufacturing, production, or operating facilities applying for or subject to a permit and the delegation of authority to such representatives is approved in advance by the Department.</p> <p>"Rules and Regulations" shall mean the Jefferson County Board of Health Air Pollution Control Rules and Regulations.</p> <p>"SIP" shall be an acronym for State Implementation Plan.</p> <p>"Source" shall mean any building, structure, facility, installation, article, machine, equipment, device, or other contrivance which emits or may emit any air contaminant. Any activity which utilizes abrasives or chemicals for cleaning or any other purpose (such as cleaning the exterior of buildings) which emits air contaminants shall be considered a source.</p> <p>"Spray Application" shall mean a method of applying coatings by atomizing and directing the atomized spray toward the part to be coated.</p> | |

| No. | Federally Enforceable General Permit Conditions | Regulations |
|-----|--|-------------|
| | <p>“Stationary Source” means any building, structure, facility or installation that emits or may emit any regulated pollutant as defined in Part 18.1 of the Rules and Regulations or any pollutant listed in Appendix D of the Rules and Regulations.</p> <p>“Surface preparation” means use of a cleaning material on a portion of or all of a substrate. This includes use of a cleaning material to remove dried coating, which is sometimes called depainting.</p> <p>“Thinner” means an organic solvent that is added to a coating after the coating is received from the supplier.</p> <p>“Total volatile hydrocarbon (TVH)” means the total amount of nonaqueous volatile organic matter determined according to Methods 204 and 204A through 204F of Appendix M to 40 CFR 51 and substituting the term TVH each place in the methods where the term VOC is used. The TVH includes both VOC and non-VOC.</p> <p>“Transfer Efficiency” shall mean the ratio of the amount of coating solids deposited onto the surface of a part or product to the total amount of coating solids used.</p> <p>“Uncontrolled coating operation” means a coating operation from which none of the organic HAP emissions are routed through an emission capture system and add-on control device.</p> <p>“VOC” shall be an acronym for volatile organic compound.</p> <p>“VOC Content” shall mean the volatile organic compound proportion of a surface coating, coating additive, filler, pigment or solvent that is used in surface coating application or solvent cleaning process.</p> <p>“Volatile Organic Compound” means any compound of carbon excluding carbon monoxide, carbon dioxide, carbonic acid, metallic carbides or carbonates, and ammonium carbonate, which participates in atmospheric photochemical reactions. This includes any such organic compound other than those listed under Part 1.3 of the Rules and Regulations and/or under 40 CFR §51.100(s)(1).</p> | |

**Summary of Requirements for Facility-Wide Surface Coating of Miscellaneous Metal Parts
and Products Subject to 40 CFR 63, Subpart Mmmm**

Description: Manual Spray, Brush, Roll Painting and Semi-Automatic Spray Lance Painting, Including the Following Designation Numbers from the Permit Application: PC-1, PC-2, PC-3 & SW-1

Permitted Operating Schedule: 24 hours/day, 7 days/week, and 52 weeks/year

Type of Fuel Used:

Primary: None

Secondary: None

Pollutants Emitted:

| Pollutant | Regulatory Emission Limit | Applicable Regulations |
|---|---|---|
| Volatile Organic Compounds (VOC) | 0.42 kg VOC/liter coating (3.5 lb VOC/gallon coating) as applied | 8.11.11(e)(2) |
| Volatile Organic Compounds (VOC) | 95 tons/year Facility-Wide VOC 12-Month Rolling Average | Avoidance of Major Source Status & Part 2.5 Non-Attainment New Source Review (Permit 4- 07-0455-01) |
| Organic HAP from General Use Coatings | 0.31 kg organic HAP/liter coating solids (2.6 lb organic HAP/gallon coating solids) | 63.3890(b) of Subpart Mmmm |
| Organic HAP from High Performance Coatings | 3.3 kg organic HAP/liter coating solids (27.5 lb organic HAP/gallon coating solids) | 63.3890(b) of Subpart Mmmm |
| Xylene (CAS 1330-20-7) Ethylbenzene (CAS 100-41-4) Methyl Ethyl Ketone (CAS 78-93-3) Methyl Isobutyl Ketone (CAS 108-10-1) Toluene (CAS 108-88-3) | Xylene \leq 11.45 tons/year Ethylbenzene \leq 11.45 tons/year Methyl Ethyl Ketone \leq 15.57 tons/year Methyl Isobutyl Ketone \leq 5.41 tons/year Toluene \leq 4.96 tons/year | Part 2.6 - 112(g) Case- by-Case MACT |

Pollution Control Devices: None

Reference Test Methods: For Organic HAP:
Mass Fraction of Organic HAP by EPA Method 311 of 40 CFR 63, Appendix A; or
Mass Fraction of Non-aqueous Volatile Material by EPA Method 24 of 40 CFR 60, Appendix A;
For Coating Solids:
Volume Fraction of Coating Solids by ASTM Method D2697-86 (Reapproved 1998) or ASTM Method D6093-97 (Reapproved 2003)
For Density:
Density of Coatings by ASTM Method D1475-98
For VOC Content:
EPA Method 24 of 40 CFR 60, Appendix A

Monitoring Requirements: Daily Records per Condition 10
Monthly 12-Month Rolling Total Calculations per Condition 8

Recordkeeping Requirements: Condition 14, General Condition 40

Testing Requirements: Condition 3, General Condition 39

Reporting Requirements: General Conditions 41 through 43

Applicable Regulations: Sections 8.1.2, 8.11.11, 8.11.12, 8.16.7, 18.5.1, 18.5.3; Part 2.6; 40 CFR 63, Subparts A & Mmmm

| Emissions Unit No. | Emissions Unit Description | Equipment Listing |

| 3. | <p><u>VOC Contents Restriction Compliance Demonstration</u></p> <p>The compliance demonstration time frame for an individual coating line that applies coatings that are subject to the same regulated VOC emission rate under Part 8.11 shall be a 24-hour calendar day. The daily calculation shall include all coatings, diluents, thinners and additives. Compliance is based on the contents of the coating as delivered to the applicator and applied to the metal part or product. Test procedures used to determine the VOC and HAP contents of each product used shall be EPA Method 24 of 40 CFR 60, Appendix A. Alternatively, the permittee may rely upon certification of the contents by the manufacturer consistent with EPA Document 450/3-84-019, "Procedures for Certifying Quantity of VOC Emitted by Paint, Ink and Other Coatings." Sufficient data to determine as-applied formulation must be provided if the as-applied formulation is different from the as-purchased coating.</p> | 8.11.12(b) 8.11.11(e) 8.16.7 | | | | | | | | | | |
| 4. | <p><u>Subpart MMMM Compliance Determination</u></p> <p>The permittee shall include all coatings, thinners and/or other additives, and cleaning materials used in the affected source when determining whether the organic HAP emission rate is equal to or less than the applicable emission limit. The permittee shall use either the complaint materials option or the emission rate without add-on controls option according to the following rules:</p> <p>A. The permittee may apply any of the compliance options to an individual coating operation, or to multiple coating operations as a group, or to the entire affected source.</p> <p>B. The permittee may use different compliance options for different coating operations, or at different times on the same coating operation.</p> <p>C. The permittee may employ different compliance options when different coatings are applied to the same part, or when the same coating is applied to different parts.</p> <p>D. The permittee may not use different compliance options at the same time on the same coating operation.</p> <p>E. The permittee must identify the compliance option used for each coating operation.</p> <p>F. If the permittee switches between compliance options for any coating operation or group of coating operations, the permittee shall document this switch as required by 40 CFR 63.3930(c), and shall report it in the next semiannual compliance report.</p> <p>G. A compliance period consists of 12 months.</p> <p>H. Failure to collect and keep records required by Subpart MMMM is a deviation.</p> <p>I. A deviation from emission limits is defined as follows:</p> <p>1. For the compliant materials option, the use of any coating that exceeds the organic HAP emission unit and/or the use of any thinner and/or other additive, or cleaning material that contains organic HAP; and</p> | 63.3891 63.3930 63.3942 63.3952 | | | | | | | | | | |

| No. | FEDERALLY ENFORCEABLE CONDITIONS FOR FACILITY-WIDE SURFACE COATING OF MISCELLANEOUS METAL PARTS & PRODUCTS SUBJECT TO 40 CFR 63, SUBPART Mmmm | Regulations |
|-----|--|--|
| | 2. For the emission rate without add-on controls option, if the organic HAP emission rate for any 12-month compliance period exceeds the applicable emission limit a deviation has occurred. | |
| 5. | <u>Subpart Mmmm – Complaint Materials Option</u> Demonstrate that the organic HAP content of each coating used in the coating operation(s) is less than or equal to the applicable emission limit, and that each thinner and/or other additive, and cleaning material contains no organic HAP. The compliance calculation shall use the equations and procedure at 40 CFR 63.3941 and is made on the basis of the condition in which the material is received from the manufacturer or supplier and prior to any alteration. No operating limits or work practice standards are required. | 63.3891(a) 63.3892(a) 63.3893(a) 63.3941 |
| 6. | <u>Subpart Mmmm – Emission Rate Without Add-On Controls Option</u> Demonstrate that, based on the coatings, thinners and/or other additives, and cleaning materials used in the coating operation(s), the organic HAP emission rate for the coating operation(s) is less than or equal to the applicable emission limit, calculated each month as a rolling 12-month emission rate. Do not include any coatings, thinners and/or other additives used in coating operations for which compliance is demonstrated using the complaint materials option. The compliance calculation shall use the equations and the procedure at 40 CFR 63.3951. No operating limits or work practice standards are required. | 63.3891(b) 63.3892(a) 63.3893(a) 63.3951 63.3952 |
| 7. | <u>Subpart Mmmm – Emission Rate With Add-on Controls Option</u> Applications shall be submitted prior to the installation of any add-on control device used for compliance with emission limits for organic HAP and a permit modification will be required. | 63.3891(c) |
| 8. | <u>Facility-Wide VOC and Individual HAP Monthly Compliance Demonstration</u> Within the first 2 weeks of each month, the permittee shall calculate the previous month's emissions of VOC, xylene, ethylbenzene, methyl ethyl ketone, methyl isobutyl ketone and toluene. The permittee shall sum the monthly calculated emissions of each listed pollutant for the previous 12 months and compare them to the annual emissions thresholds in Condition 2 above. If any emissions limit has been exceeded, the permittee shall notify the Department within 2 working days. | 1.9 18.7.5(b) |
| 9. | <u>Waste Paint and Solvent Disposal</u> The permittee shall collect and properly contain as much as possible of the waste solvent and paint that's not reusable. The permittee shall not cause or allow the disposal of waste VOC/HAP containing materials in sewers, open containers, or in any manner that would result in vaporization to the atmosphere. Records of the method of disposal shall be maintained. This solvent cannot be used as a diluent for the surface coatings unless properly documented and does not exceed the allowable VOC restriction under any permit condition of this permit or any Rule or Regulation. | 18.2.4 |
| 10. | <u>Required Records</u> The permittee shall maintain the following records in a manner that they can be readily accessed and are suitable for inspection for 5 years following the date of each occurrence, report or record: A. The following information for all surface coatings and organic liquid solvents (diluent, thinners, additives, wash and cleaner): 1. Purchase orders and invoices; 2. Manufacturer, product name and number (manufacturer's code number); 3. Coating operation(s) in which the product is used; and 4. An MSDS or other contents certification provided by the manufacturer including as a minimum the density (lb/gal), non-exempt VOC content in percent weight, HAP content in percent weight, and solids content in percent volume. B. Daily records necessary to verify compliance with the VOC emission limit: 1. The quantity in gallons of all surface coatings delivered to the application system; 2. The quantity in gallons of all organic liquid diluents (coating thinners and additives) added to the surface coatings; | 8.11.12 18.5.3(b) 63.3930 63.3931 63.10(b) |

| No. | FEDERALLY ENFORCEABLE CONDITIONS FOR FACILITY-WIDE SURFACE COATING OF MISCELLANEOUS METAL PARTS & PRODUCTS SUBJECT TO 40 CFR 63, SUBPART MMMM | Regulations |
|-----|---|--------------------|
| | <ol style="list-style-type: none"> 3. The quantity in gallons of all organic liquid solvents used for wash or cleanup; 4. The quantity in gallons of all organic liquid waste properly contained and shipped out for proper disposal and a certification of the waste density and percent VOC content by weight; 5. The date of each application of surface coatings and diluents and usage of wash and cleanup solvents; 6. The regulation(s) applicable to the coating line for which the records are being maintained; 7. The application method and the substrate material type; 8. The surface coating curing temperature(s) in degrees Fahrenheit; and 9. The daily calculation of the pounds of VOC per gallon of coating delivered to the application system, including coatings, thinners and additives but excluding water and exempt VOC. <p>C. The following records for each Subpart MMMM compliance period:</p> <ol style="list-style-type: none"> 1. The coating operations on which each compliance option was used and the time periods (beginning and ending dates and times) for each option; 2. The name and volume of each coating, thinner and/or other additive, and cleaning material used; 3. The mass fraction of organic HAP for each coating, thinner and/or other additive, and cleaning material used unless the material is tracked by weight; 4. The volume fraction of coating solids for each coating used; 5. The density for each coating, thinner and/or other additive, and cleaning material used if using the emission rate without add-on controls option; 6. If the permittee conducts testing to determine density, mass fraction of organic HAP, and/or volume fraction of coating solids, the entire test report shall be retained; 7. For the compliant material option: <ol style="list-style-type: none"> a. The calculation of the organic HAP content for each coating using the equations and procedures of 40 CFR 63.3941; and b. Purchase records or actual use records for each material used; and 8. For the emission rate without add-on controls option: <ol style="list-style-type: none"> a. The following calculations using the equations and procedure of 40 CFR 63.3951: <ol style="list-style-type: none"> i. The total mass of organic HAP emissions for the coatings, thinners and/or other additives, and cleaning materials used each month of the reporting period based upon actual use records; ii. The calculation of the total volume of coating solids used each month; and iii. The calculation of each 12-month organic HAP emission rate. b. If using an allowance for organic HAP contained in waste materials sent to or designated for shipment to a treatment, storage, and disposal facility (TSDF) as allowed by 40 CFR 63.3951: <ol style="list-style-type: none"> i. The name and address of each TSDF to which you sent waste materials; a statement of which subparts under 40 CFR 262, 264, 265, and 266 apply to the facility; and the date of each shipment; ii. Identification of the coating operations producing waste materials included in each shipment and the month or months in which you used the allowance for these materials; and iii. The methodology used to determine the total amount of waste materials sent to or the amount collected, stored, and designated for transport to a TSDF each month; and the methodology to determine the mass of organic HAP contained in these waste materials. This must include the sources for all data used in the determination, methods used to generate the data, frequency of testing or monitoring, and supporting calculations and documentation, including the waste manifest for each shipment. | |

| No. | FEDERALLY ENFORCEABLE CONDITIONS FOR FACILITY-WIDE SURFACE COATING OF MISCELLANEOUS METAL PARTS & PRODUCTS SUBJECT TO 40 CFR 63, SUBPART MMMM | Regulations |
|-----|---|-------------|
| | <p>D. Other records:</p> <ol style="list-style-type: none">1. The hours of operation surface coating operations;2. For any spill of VOC/HAP materials: the date and time of the spill, the substance spilled, the quantity spilled, and the quantity recovered and/or emitted to the atmosphere;3. For any VOC/HAP containing materials that are properly disposed, the quantity in gallons and certification of the VOC content in percent weight;4. A copy of each notification, report and associated supporting documentation submitted to comply with Subpart MMMM;5. Records of the date, time, and duration of each deviation; and6. The occurrence and duration of any malfunction of process and/or control equipment or any deviation or violation of permit conditions, including the probable cause of said malfunctions, deviations or violations, written documentation demonstrating that the event falls under the Department's emergency provision if appropriate, and any corrective actions or preventive measures that were taken. <p>Records shall be maintained onsite for 2 years but may be stored offsite for the remaining 3 years. Records may be maintained in electronic and/or hard copy format.</p> | |

Summary of Requirements for Facility-Wide Sandblasting Operations

Description: Facility-Wide Sandblasting Operations Including 3 Sandblasting Machines, Including the Following Designation Numbers from the Permit Application: SB-1, SB-2 & SB-3

Permitted Operating Schedule: 24 hours/day, 7 days/week, and 52 weeks/year

Type of Fuel Used:
Primary: None
Secondary: None

Pollutants Emitted:

| Pollutant | Regulatory Emission Limit | Applicable Regulations |
|-------------------|--|------------------------|
| Visible Emissions | 20% opacity as a 6-minute average | 6.1.1 |
| Fugitive Dust | No Visible Emissions May Travel Beyond the Property Line | 6.2.2 |

Pollution Control Devices: None

Reference Test Methods: For Visible Emissions:
EPA Method 9 of 40 CFR 60, Appendix A

Continuous Monitoring System: Not applicable

Monitoring Requirements: Daily Visible Emission Observation per Condition 5

Recordkeeping Requirements: Condition 5, General Condition 40

Testing Requirements: General Condition 39

Reporting Requirements: General Conditions 41 through 43

Applicable Regulations: Chapters 6 & 18

| Emissions Unit No. | Emissions Unit Description | Equipment Listing |
|--------------------|---------------------------------------|---|
| 002 | Facility-Wide Sandblasting Operations | 3 Sandblasting Machines, Including the Following Designation Numbers from the Permit Application: SB-1, SB-2 & SB-3 |

| No. | FEDERALLY ENFORCEABLE CONDITIONS FOR FACILITY-WIDE SANDBLASTING OPERATIONS | Regulations |
|-----|---|----------------------------|
| 1. | The facility-wide sandblasting operations subject to the requirements below shall include any equipment, device, or contrivance and all appurtenances thereto, including sandblasting machines, abrasive blasting materials, abrasive blasting material storage and feeding equipment, building and plastic drape enclosures. In addition to the General Permit Conditions, this unit is subject to: A. Part 6.1 of the Rules and Regulations regulating visible emissions; B. Part 6.2 of the Rules and Regulations regulating fugitive dust; and C. Chapter 18 of the Rules and Regulations regulating Title V major source permitting. | 6.1 6.2 Chapter 18 |
| 2. | <u>Building Enclosure Requirements</u> Sandblasting operations shall be enclosed within a plant building. | 18.5.1 |
| 3. | <u>Visible Emissions</u> The permittee shall not discharge into the atmosphere from abrasive blasting operations or any other source of emission any air contaminant with an opacity greater than 20%, as determined by a 6-minute average using EPA Method 9 of 40 CFR 60, Appendix A, except that during (1) 6-minute period in any 60-minute period, particulate emissions from a source of emission may reach but not exceed 40% opacity. | 6.1.1 18.5.1 |
| 4. | <u>Fugitive Dust</u> A. The permittee shall take all reasonable precautions to prevent particulate matter from becoming airborne, including but not limited to wet suppression, paving, enclosures, and control device(s). B. Adequate containment methods shall be employed during abrasive blasting operations. The following enclosures are required: 1. Sandblasting machines SB-1 and SB-2 shall be enclosed in a 3-sided building with thick plastic drapes (or other acceptable material) over the open-ends of the building. The plastic drapes shall be maintained so that fugitive dust does not leave the sandblasting enclosure. All sandblasting shall be done within the enclosures unless metal pipe too large to fit inside the enclosures has to be sandblasted. 2. Sandblasting machine SB-3 for large pipe shall be located away from property lot line. C. The permittee shall not cause or allow the discharge of visible fugitive dust emissions beyond the lot line of the property on which the emissions originate. If dust from the abrasive blasting operation escapes from a building or equipment in such a manner and amount as to cause a nuisance or to violate any rule or regulation, the permittee shall be required to tightly close the building or equipment and ventilated in such a way that all air borne material leaving the building or equipment is treated by removal of air contaminants before discharge to the open air. | 6.2.1(c) 6.2.2 6.2.3 |
| 5. | <u>Daily Visible Emission Observation</u> The permittee shall perform a daily visible observation during the operation of the sandblasting machines for any visible emissions (dust) crossing the plant property lines. If the permittee observes any visible emissions, the sandblasting operations shall be shutdown and corrective actions taken. When no more visible emissions occur, the sandblasting operations may begin again. A record of visible emissions occurrence and the actions taken shall be recorded and a report submitted to the Department within two (2) working days. | 6.2 18.5.3 |
| 6. | <u>Recordkeeping</u> The permittee shall maintain the following records for the emissions units listed above: A. Hours of operation; B. Quantity of sand abrasive material used (tons); C. Quantity of material (piping) subjected to sandblasting (tons); and D. Time, date, name of observer for visible emissions observations. | 1.9.1 18.5.3 |

APPENDIX A: CROSS-REFERENCE TABLE: JCDH AIR POLLUTION CONTROL RULES AND REGULATIONS TO STATE IMPLEMENTATION PLAN

The citations to Alabama regulations provided below refer to the version of the regulation that has been approved by the U.S. EPA as part of Alabama's Clean Air Act state implementation plan (SIP), as identified in 40 CFR 52, Subpart B. In the event that there is a discrepancy between the information provided in the table below and the federal regulatory table identifying the Alabama SIP at 40 CFR 52, Subpart B, the federal regulatory table governs.

| Part 5.2 | Section 335-3-3-.02 | Incinerators |

¹ Revisions of the definition of VOC to exclude *trans* 1-chloro-3,3,3-trifluoroprop-1-ene (Solstice™ 1233zs(E)), 2,3,3,3-tetrafluoropropene, and 2-amino-2-methyl-1-propanol (AMP) have not been approved into the SIP.

² Revisions to the following provisions have not been approved as SIP changes by EPA: the permitting applicability statement for greenhouse gases at ADEM 335-3-14-.04(1)(k) (JCDH 2.4.1(k)) and the definition of replacement unit at ADEM 335-3-14-.04(2)(bbb) (JCDH 2.4.2(bbb)).

³ As of Sept. 26, 2012 Section 335-3-14-.04 does not include Alabama's revision to adopt the PM_{2.5} SILs threshold and provisions (as promulgated in the October 20, 2010 PM_{2.5} PSD Increment-SILs-SMC Rule at 40 CFR 1.166(k)(2) and the term "particulate matter emissions" (as promulgated in the May 16, 2008 NSR PM_{2.5} Rule (as 40 CFR 51.166(b)(49)(vi)).

⁴ The following provisions are not part of the EPA-approved SIP: the portion of 335-3-14-.05(1)(k) (JCDH 2.5.1(k)) stating "excluding ethanol production facilities that produce ethanol by natural fermentation"; 335-3-14-.05(2)(c)3. (JCDH 2.5.2(c)(3)) which addresses fugitive emission increases and decreases; 335-3-14-.05(1)(h) (JCDH 2.5.1(h)) stating the actual-to-potential test for projects that only involve existing emissions units; the last sentence at 335-3-14-.05(3)(g) (JCDH 2.5.3(g)), stating "Interpollutant offsets shall be determined based on the following ratios"; and the NNSR interpollutant ratios at 335-3-14-.05(3)(g)1.-4. (JCDH 2.5.3(g)(1)-(4)).

⁵ See also Guidelines & Standard Operating Procedures for Issuance of Open Burning Authorizations at the end of Chapter 5. ADEM 335-3-3-.01(2)(b)(6) also prohibits open burning during declared air stagnation advisories and drought emergencies.

⁶ JCDH has no equivalent for ADEM 335-3-3-.03(5), which states “Each incinerator subject to this Rule shall be properly designed, equipped, and maintained for its maximum rated burning capacity and shall be equipped with an underfire forced air system, an over-fire air recirculation secondary construction system, and variable control damper, all of which shall be electronically controlled to insure the optimum temperature range for the complete combustion of the amount and type of material waste being charged into the incinerator. Each such incinerator shall be equipped with a temperature recorder which shall be operated continuously with the incinerator, and the temperature records shall be made available for inspection at the request of the Director.”

⁷ ADEM 335-3-4-.01(1) & (2) are included in the EPA-approved SIP, however, the remaining provisions are not SIP-approved.

⁸ ADEM 335-3-4-.02(4) was removed effective July 15, 1999, however, the provision is still included in the EPA-approved SIP.

⁹ All allowable emissions rates in Table 6-3 should be construed to have 2 significant figures, consistent with ADEM 335-3-4-.05, Table 4-3.

¹⁰ All allowable emissions rates in Table 6-4 should be construed to have 1 significant figure, consistent with ADEM 335-3-4-.06, Table 4-4.

¹¹ The definition at ADEM 335-3-6-.24(2)(d) is located at JCDH Part 1.3.

¹² The EPA-approved SIP excludes only 11 compounds from the definition of VOC at ADEM 335-3-6-.26(1) (JCDH 8.3.1). The SIP-approved exemptions are listed in ADEM 335-3-1-.02(1)(gggg)(JCDH Part 1.3) as numbered exemptions 1-10 and 20).

¹³ The EPA-approved SIP requires a disposal system in conjunction with equipment required by ADEM 335-3-6-.26(2)(c)1.(i) (JCDH 8.3.2(c)1(i)).

¹⁴ ADEM 335-3-6-.33(5)(n) (JCDH 8.12.5(n)) is not included in the approved SIP.

¹⁵ Federally enforceable testing provisions for perchloroethylene dry cleaning systems are located at ADEM 335-3-6-.37(5) and federally enforceable testing provisions for capture efficiency are located at ADEM 335-3-6-.37(13).

| Chapter 10 | Chapter No. 335-3-8 | Control of Nitrogen Oxides Emissions |
| Part 10.1 | Section 335-3-8-.01 | Standards for Portland Cement Kilns |
| Part 10.2 | Section 335-3-8-.02 | Nitric Acid Manufacturing |
| Part 10.3 | Section 335-3-8-.03 | NO _x Emissions from Electric Utility Generating Units |
| Part 10.4 | Section 335-3-8-.04 | Standards for Stationary Reciprocating Internal Combustion Engines |
| Part 10.5 | Section 335-3-8-.05 ¹⁹ | New Combustion Sources |
| Chapter 11 | Chapter No. 335-3-9 | Control of Emissions from Motor Vehicles |
| Part 11.1 | Section 335-3-9-.01 | Visible Emission Restriction for Motor Vehicles |
| Part 11.2 | Section 335-3-9-.02 | Ignition System and Engine Speed |
| Part 11.3 | Section 335-3-9-.03 | Crankcase Ventilation Systems |
| Part 11.4 | Section 335-3-9-.04 | Exhaust Emission Control Systems |
| Part 11.5 | Section 335-3-9-.05 | Evaporative Loss Control Systems |
| Part 11.6 | Section 335-3-9-.06 | Other Prohibited Acts |
| Part 11.7 | Section 335-3-9-.07 | Effective Date |
| Chapter 17 | Chapter No. 335-3-15 | Synthetic Minor Operating Permits |
| Part 17.1 | Section 335-3-15-.01 ²⁰ | Definitions |
| Part 17.2, except 17.2.8(h)(7) | Section 335-3-15-.02 ²¹ | General Provisions |
| Part 17.3 | Section 335-3-15-.03 | Applicability |
| Part 17.4 ²² | Section 335-3-15-.04 | Synthetic Minor Operating Permit Requirements |
| Part 17.5, except 17.5.2 | Section 335-3-15-.05 | Public Participation |
| Chapter 19 | Chapter No. 335-3-17 | Conformity of Federal Actions to State Implementation Plans |
| Part 19.1 | Section 335-3-17.01 ²³ | Transportation Conformity |
| Part 19.2 | Section 335-3-17-.02 | General Conformity |

¹⁶ The following provisions are not included in the EPA-approved SIP: the last 4 sentences of ADEM 335-3-6-.43(1)(c) (JCDH 8.22.(c)), provision ADEM 335-3-6-.43(1)(f) (JCDH 8.22.1(f)) and all provisions of ADEM 335-3-6-.43(5) & (6) (JCDH 8.22.5 and 8.22.6).

¹⁷ Current ADEM 335-6-.49(4) & (5) (JCDH 8.28.4 and 8.28.5) are not included in the EPA-approved SIP. The SIP-approved version of ADEM 335-6-.49(4) (JCDH 8.28.4) is "Compliance with this Rule shall be demonstrated via certification by the adhesive manufacturer as to the composition of the adhesive, if supported by actual batch formulation records. Sufficient data to determine as-applied formulation is different from the as-purchased adhesive."

¹⁸ Test Methods 204, 204A-204F are not included in the APR-approved SIP.

¹⁹ ADEM 335-3-8-.05 was approved into the SIP as ADEM 335-3-8-.14 but was renumbered when CAIR provisions were removed.

²⁰ Only the first sentence of ADEM 335-3-15-.01(g) is approved into the SIP. JCDH does not include the unapproved language.

²¹ ADEM 335-3-15-.02(10) is not included in the EPA-approved SIP. JCDH does not include the unapproved provision.

²² JCDH Part 17.4 does not include the federally enforceable provisions of ADEM 335-3-15-.04(1)(g) and (3)(c).

²³ The reference to July 1, 2012 in ADEM 335-3-14-.01 and JCDH Part 19.1.1 has not been approved into the SIP.
